

Arkansas Division of Higher Education
Annual Report on Concurrent Education
Fiscal Year 2018-20

Academic Affairs

December 2020

Arkansas Division of Higher Education
423 Main Street, Suite 400 Little Rock, AR 72201

ANNUAL REPORT ON CONCURRENT EDUCATION

Arkansas law allows for the enrollment of high school students in college-level courses under certain conditions. Under Arkansas code §6-60-202, a qualified student at a public or private high school in Arkansas can enroll in postsecondary education for college-level credit exclusively on a part-time status. This is defined as **dual enrollment**. Under this code, a “qualified student” is someone who must be recommended for enrollment by the principal of the high school where the student is enrolled and also must meet the minimum criteria for advanced placement.

Under Arkansas Code §6-18-223, a public school student who is enrolled in a Arkansas public school system and has successfully completed the eighth grade is eligible to enroll in a public two-year or four-year institution of higher education to complete a **college course** for *high school* and *college credit*. **Concurrent enrollment** allows students to obtain credit toward a high school diploma at the same time they earn college credit.

This report will focus on the state of concurrent and dual enrollment among Arkansas postsecondary institutions in AY 20. For more information related to concurrent education, ADHE now provides a website that contains our concurrent policy, a listing of concurrent contacts by institution, and MOU template for institutions.

INSTITUTIONAL REQUIREMENTS FOR CONCURRENT CREDIT

For concurrent course enrollments to be counted for full-time enrollment (FTE)/higher education funding purposes, conditions in the following areas below must be met.

Program Accreditation/Authorization

If a postsecondary institution offers a concurrent credit course(s) on a high school campus taught by a high school teacher, the postsecondary institution must be accredited by the National Alliance of Concurrent Enrollment Partnerships (NACEP) or approved by the Arkansas Higher Education Coordinating Board (AHECB) to offer courses, including courses offered via distance technology, for concurrent credit. A listing of all institutions that are accredited/approved by NACEP or AHECB is listed at the end of this report.

Concurrent Credit Courses

Concurrent credit courses must be freshman and/or sophomore-level courses approved through an established institutional process and included in the institutional course catalog. The general education courses offered for concurrent credit must be listed in the Arkansas Course Transfer System (ACTS). A list of the career and technical education (CTE) courses offered for concurrent credit must be attached to the signed Memorandum of Understanding (MOU) between the high

school/school district and the college/university.

Students can earn college credit and/or *up to* one unit of high school credit for successful completion of each general education concurrent course, blended AP or IB/concurrent course, or CTE course that is a minimum of 3 semester credit hours. Courses offered for concurrent credit must meet the **same standards** as college courses taught on the college/university campus.

The college/university administration must exercise direct oversight of all aspects of the concurrent course, including participation in the faculty selection, orientation, and evaluation processes. The concurrent course instructor must use the approved college/university course syllabus and textbook. He or she must adopt the **same** learning outcomes and assignments as those developed for the course offered on the college/university campus (with limited exceptions). Lastly, the instructor must use the same grading/awarding standards as those on the college/university campus. If departmental exams are used in college/university campus courses, then those course exams must be used at the high school site.

While it is understood that one high school may have a concurrent agreement with more than one college/university; however, there should not be unnecessary duplication of college course offerings.

AP/Concurrent or IB/Concurrent Blended Courses (College/University Participation Optional)

Advanced Placement (AP) courses are high school courses in which students are required to take the AP Exam and make the requisite score in order to receive college credit from an Arkansas institution of higher education.

The merging of *AP or IB courses* and *general education college courses* is allowed under certain circumstances, and these merged courses will be referenced as **blended AP/concurrent or IB/concurrent courses**.

Colleges and universities that offer these blended concurrent courses must ensure that these courses meet all the requirements set forth in this concurrent enrollment policy. Students enrolled in these blended AP/concurrent or blended IB/concurrent courses must meet all college/university requirements included in this concurrent enrollment policy.

The high school must have written documentation on file of all students who took the AP exam and IB exam along with corresponding exam data to provide to the college/university upon request. Any high school that cannot furnish data on blended AP/concurrent or blended IB/concurrent test takers during an ADE/ADHE concurrent enrollment program audit will not be approved for the continued offering of blended AP/concurrent or blended IB/concurrent courses.

Concurrent Course Ownership

Postsecondary institutions must demonstrate "ownership" of any course offered for concurrent credit for which students are reported for funding purposes.

Ownership of courses means that the college/university will:

- Provide the instructors with appropriate training and orientation in course curriculum, assessment criteria, course philosophy, and administrative requirements after approval of the instructors to teach the college/university courses.
- Ensure that instructors receive continuing collegial interaction with college faculty through professional development, required seminars, and site visits. These interactions will address topics such as course content, course delivery, student learning assessment, in-class evaluation, and professional development in the field of study.
- Ensure that students have the opportunity to utilize institutional resources including the college/university library and academic advising on the college/university campus.

Simply awarding college credit to students who are enrolled in concurrent courses offered by a sponsoring college/university does not meet the principle of “course ownership” as described above.

Teaching Credentials

Faculty teaching general education concurrent courses must have a master's degree that includes a minimum of 18 graduate college credit hours in the subject area being taught. College or university faculty who travel to the high school or secondary center to teach concurrent courses (and/or faculty and staff that have direct, official contact with the high school student) must have a criminal background check and complete the child maltreatment training course as required of public school teachers.

The teacher of the blended AP/concurrent course(s) must have completed AP training in the subject area(s), must have a master's degree with a minimum of 18 graduate college credit hours in the subject area being taught, must be approved to teach the concurrent course(s) by the college/university, and must provide the college/university with documentation of successful completion of AP training.

The instructor of record must be the individual that teaches the concurrent course(s). For general education concurrent courses and blended concurrent courses, these individuals must have a master's degree that includes a minimum of 18 graduate college credit hours in the subject areas being taught. For the purpose of teaching a concurrent course under this policy, an individual under contract with the school district as a teacher will not be considered an adjunct faculty member of the college/university.

Concurrent Reauthorization

All institutions authorized by the Arkansas Higher Education Coordinating Board (AHECB) had to undergo their first Concurrent Reauthorization process. A listing of these institutions is provided in the Appendix.

A college or university with AHECB initial authorization for the Concurrent Enrollment Program can offer courses for concurrent enrollment for a period of up

to seven (7) years *unless* the AHECB requires a follow-up review within the 7-year timeframe and/or the NACEP accreditation has expired.

The request for AHECB CEP reauthorization must include documentation of the following:

- A current Memorandum of Understanding with each high school with whom the college/university desires to offer concurrent enrollment
- A current list of concurrent courses offered by course name, number (i.e. ENGL 1013), the ACTS course number, and any pre-requisites courses
- By academic discipline, a description of the process for assuring that concurrent course content satisfies the requirements of the college/university academic unit.
- A current list of concurrent instructors offering courses for concurrent credit including a statement that each instructor meets the minimum requirements for instruction as required by AHECB and the academic department offering the concurrent credit
- An explanation of how grades are awarded and recorded with the college/university Registrar
- An analysis of student success, persistence, and retention data to determine to what extent concurrent credit courses are leading to student success for the three years prior to the reauthorization request year.

The information for continued authorization was submitted to ADHE by June 1st, 2020 and is currently being reviewed by a team selected by ADHE from among those designated to serve on the Concurrent Review Committee (CRC).

Based on the CRC review, ADHE will make a recommendation to AHECB for continued authorization or a recommendation for discontinuation of institutional concurrent enrollment programs.

STATE OF CONCURRENT EDUCATION IN ARKANSAS

After gains in total postsecondary enrollment over the past three years, total high school enrollment in public college and universities decreased for Fall 2020 as shown in Figure 9.1. Both two and four-year institutions had enrollment decreases of 14% and 11% respectively. Despite the decrease in high school enrollment, the percentage of high school enrollment in college and universities in relation to total postsecondary enrollment has increased for the fourth consecutive year: high school enrollment represents 8.1% of the total student enrollment at four-year institutions and 11.9% at two-year institutions.

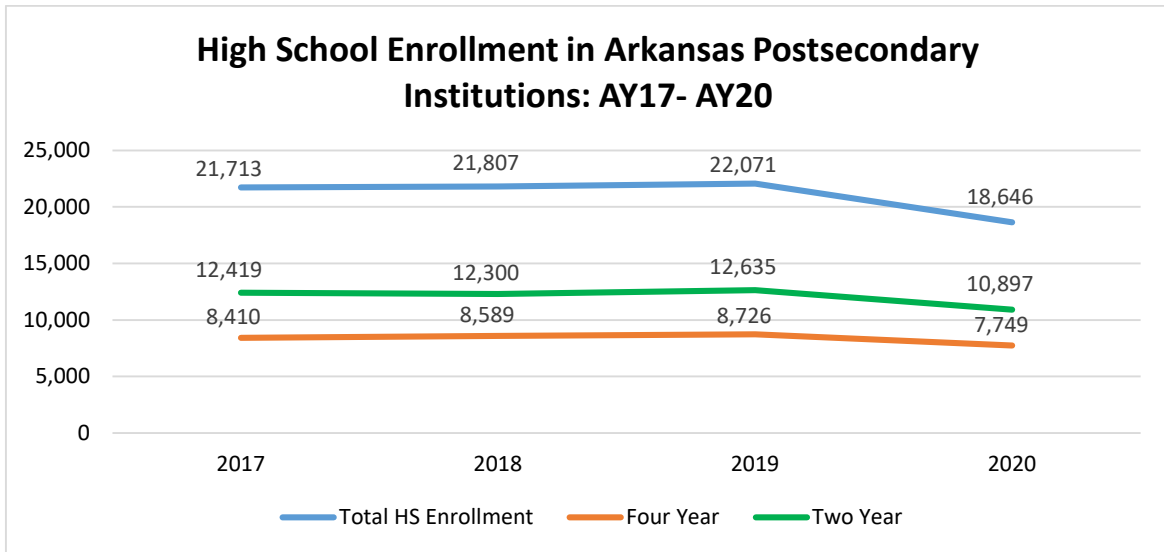

Figure 9.1. High School Enrollment Rates in Arkansas Public Colleges & Universities

Concurrent Course Breakdown

Concurrent Course Offerings. Figure 9.2 below details the number of concurrent courses offered. From AY 19 to AY 20, the total number of concurrent courses offered by all public institutions increased by 5.6%. By institutional type, concurrent course offerings decreased at four-year institutions by 8% but increased at two-year institutions by 15%. Further breakdown of institutional trends are noted below.

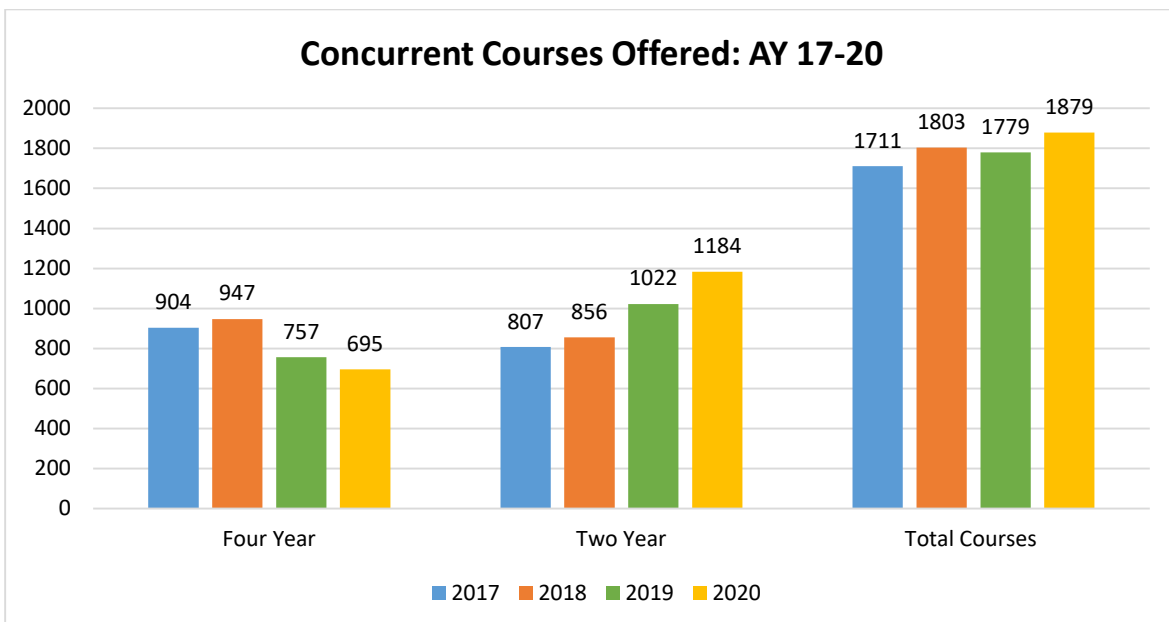

Figure 9.2. Breakdown of Concurrent Course Offerings by Sector.

Concurrent Course Types. Figure 9.3 provides a breakdown of the types of concurrent courses offered at the public institutions.

Four-Year Institutions. At four-year institutions, a slight majority (53%) of the courses offered are general education courses (ACTS) followed by career and technical education (CTE) courses (32%) and blended concurrent/Advanced Placement courses (15%). While the number of general education course offerings has steadily declined by 39% over the past four years, CTE and blended courses have remained steady during the same four-year period.

Two-Year Institutions. At the two-year institutions, the majority of courses offered are general education courses (ACTS) (57%) followed by CTE (36%) and blended concurrent/Advanced Placement courses (7%). Notably, general education offerings increased by 75% over a four-year period at these institutions.

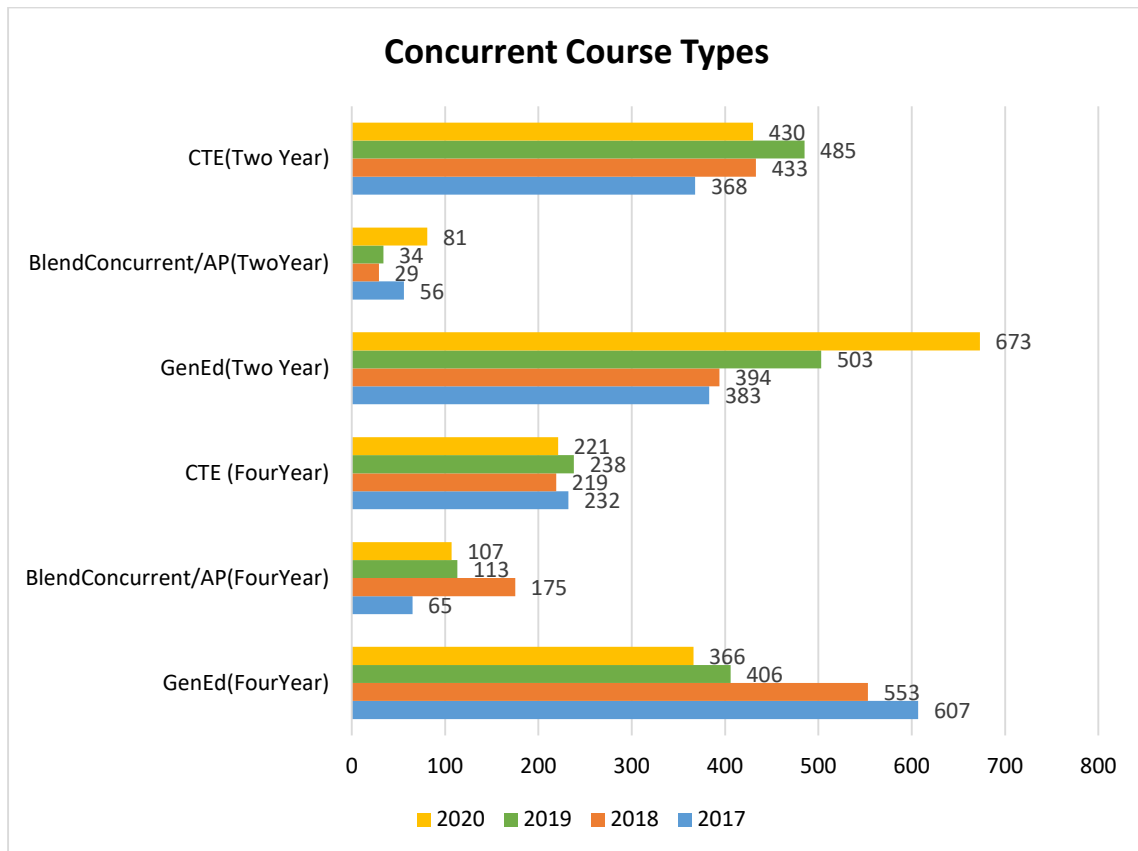

Figure 9.3. Concurrent Course Type by Academic Year and Sector

Concurrent Student Breakdown

In this section, the concurrent student will be discussed based on the categories of a) race/ethnicity and b) gender.

Race/Ethnicity. Due to updates in our student information system, concurrent student data related to race or ethnicity in AY 20 will not be included in this report. However, it is pertinent to note that during the last three years prior (AY 17 to AY 19), the majority of students who have participated in concurrent or dual enrollment have been White students (74%) followed by African-American (11%) and Hispanic students (7%) as noted in Figure 9.4.

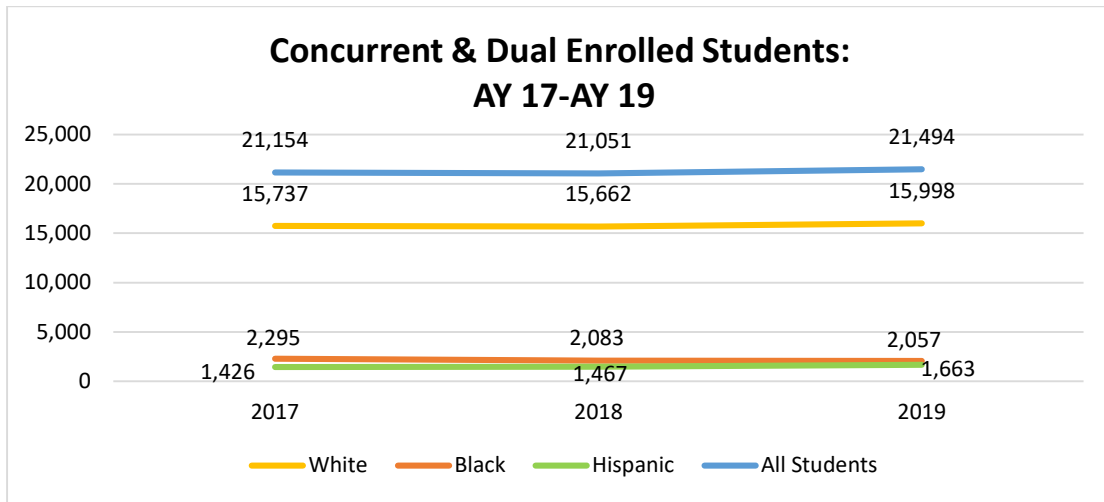

Figure 9.4. Concurrent & Dual-Enrolled Students by Race/Ethnicity

Gender. In terms of gender, the majority of concurrent students were female students regardless of the institutional type over a four year period.

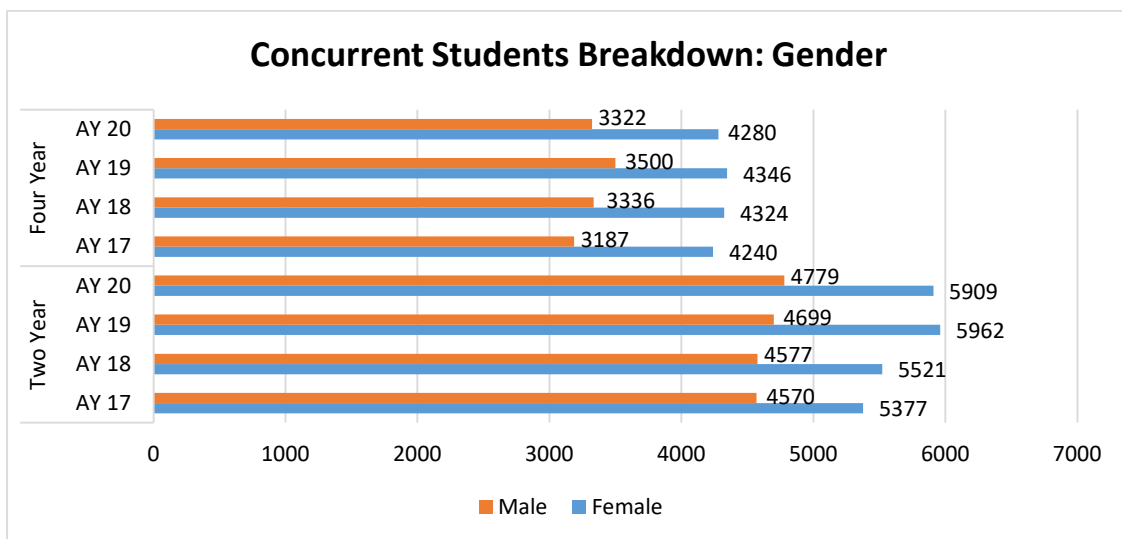

Figure 9.5. Concurrent Students by Gender

Concurrent Student Grade Breakdown

In this section, student grade distributions in concurrent courses will be discussed based on two categories: a) concurrent course type (i.e. general education, CTE, blended) and b) gateway courses. It is also important to note that the grades captured are from each of the Fall semesters during the time period between AY 17 and AY 20.

Student Grades by Course Type. When viewing student grades by concurrent course type, the majority of student grades issued were either an A, B, or C. For concurrent general education and blended AP courses, those letter grades composed of 96% to 97% of the grade distribution respectively whereas in concurrent CTE courses, those grades made up 89% of the distribution.

Figure 9.6. Concurrent Grade Distribution by Course Type. Note: The zeros with the asterisks indicate there were suppressed counts that were not included due to FERPA.

Student Grades by Gateway Courses. Gateway courses are identified as general education courses in math, English, reading, or an ADHE approved terminal subject area course that is listed in the Arkansas Course Transfer System. For this section, the following gateway courses in math, English, and History were selected respectively: College Algebra (MATH 1103), Quantitative Literacy (MATH 1113), English Composition I (ENGL 1013), and United States History I and II (HIST 2113, 2123). Based on gateway course classification, the majority of all student grades issued as an A, B, or C composed 96% of the grade distribution.

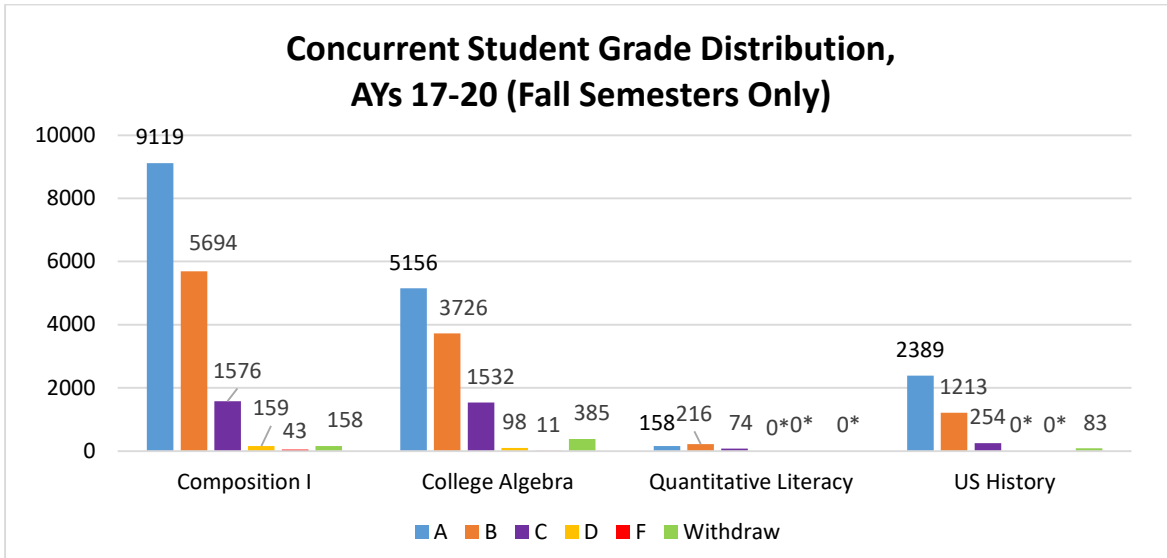

Figure 9.7. Concurrent Grade Distribution by Capstone Course. The zeros with the asterisks indicate there were suppressed counts that were not included due to FERPA.

Concurrent Course Tuition Breakdown

According to ADHE Concurrent policy (3.15.6), all colleges and universities offering concurrent courses must establish tuition and fee rates for those students. Colleges and universities cannot claim any student semester credit hours or funding if tuition is not received by the institutions in any form. In the annual Concurrent End of Year Report, institutions must disclose the tuition amount charged to the student before any scholarships or discounts are administered. Of the eighteen respondents, 13 disclosed the tuition amount via credit hour. Other institutions expressed tuition amounts through different units (e.g. per course or per student). A listing of these responses is located in Appendix D. For this discussion, the average tuition was calculated from the unit measure of credit hour. Based on the responses from the 2018-2019 Concurrent End of Year Report, on average, a high school student is charged \$90 per credit hour for a concurrent course before scholarships are administered.

Appendix D

2019-2020 Listing of Tuition Amounts Charged to Students
from AHECB Approved CEPs

Institution	Tuition Amount	Unit
ANC	\$71.00	Credit Hour
ASUMS	\$95.00 ¹	Credit Hour
ASUMH	\$98.00	Credit Hour
ATU	\$232.00	Credit Hour
ATUO	\$64.00 ²	Credit Hour
BRTC	\$40.00	Credit Hour
CCCUA	\$125.00	Per Course
EACC	\$86.00 ³	Credit Hour
HSU	\$50.00	Per Course
OZC	\$50.00	Credit Hour
SACC	\$47.50 ⁴	Credit Hour
SAUT	\$54.00	Credit Hour
SEARK	\$0	--
UAM	\$159.30	Credit Hour
UAPB	\$25.00	Per Student
UACCM	\$75.00	Per Course
UACCRM	\$83.00	Credit Hour
UAPTC	\$86.00 ⁵	Credit Hour

1. ASUMS: Based on Crittenden County residents. Other AR county residents were charged \$115.

2. ATUO: Based on in-state tuition

3. EACC: Based on in-county tuition. Out of county tuition is \$96 per credit hour.

4. SACC: \$50 per credit hour if instructor is provided by college; \$45 per credit hour if a credential high school instructor. For the formula, we calculated the average.

5. UAPTC: Based on concurrent model where the class is offered at HS and taught by UAPTC instructor.
